

INSTRUCTIONS & INFORMATION

AERA-VATOR CART

Part Number 503005

Use with 440 and 660 Aera-vator.

The Aera-vator Cart has been designed to support the 440 or 660 Aera-vator when disconnected from the Grasshopper tractor which allows for easier attaching, moving and storage of the Aera-vator.

ASSEMBLY INSTRUCTIONS:

(Refer to illustration on page 2)

- Locate the right and left plates (items 1 & 2) and the two .625 diameter rods (item 3). Slide the rods through the holes in the plates as shown in the illustration.
- Position the plates approximately 20 inches apart and secure the rods to the plates with two U-Bolts (item 4) and .25-20 whiz nuts (item 5) in each plate.
- Install washer (item 6), roller (item 7), washer and cotter pin (item 8) on the ends of each rod.
- Position the rotor shaft of the Aera-vator into the “U” shaped cut-out in the plates, centered on the cart.
- The illustration below shows the Aera-vator in the storage position.
