

INSTRUCTIONS & INFORMATION

WIRING ADAPTER - HEIGHT ADJUSTMENT/BIDIRECTIONAL BROOM

Part number 604923

Used to adapt 1997 and older Electric Height Adjustment Kits and Bidirectional Brooms to tractors equipped with the universal wiring harness, part number 604939.

INSTALLATION INSTRUCTIONS:

- Locate the relay w/mount and attach it to the seat hinge center mounting bolt.
- Locate the eight-way male clear plug and connect it to the eight-way female black plug from the universal tractor harness.
- Connector the opposite end, with the two-way female plug, to the two-way male plug from the deck lift or the bidirectional broom.
- Finally, make certain all wires have been routed to stay clear of all moving parts.
