

# INSTRUCTIONS & INFORMATION

## WIRING ADAPTER - HYDRAULIC LIFT AERA-VATOR W/ WEATHER-PACK

Part number 604896 or 605966

Use 604896 for 2006 & older Universal Wire Harness / Limited Universal Harness.

Use 605966 for 2007 & newer Universal Wire Harness / Limited Universal Harness.

Used to adapt Hydraulic Lift Aera-Vators to tractors equipped with universal wiring harness  
(part number 504780 or 504785) terminating in a 6 way connector.

### INSTALLATION INSTRUCTIONS:

**NOTE: This wiring harness provides a feature that shuts off the Aera-vator when it is in a raised position.**

- Locate two purple wires inside the flex loom and connect the six-way female black

plug to the universal tractor harness.

- Connect the opposite end, with the four-way black plug, to the switch mounted on the Aera-vator assembly.
- Finally, make certain all wires have been routed to stay clear of all moving parts.
