

- Remove the heater core and metal screen from Heater Box (item 1). Install Hose Adapter (item 2) through opening in box. Reinstall screen and heater core. Mount the heater box inside the heater mount (item 6) with two (2) 1/4"-20 x 1/2" whiz bolts (item 20). (See Fig. 4)

- Connect the two (2) heater hoses (items 3 & 4) that were installed on the thermostat housing and the hose removed from the thermostat housing. Secure hoses with Hose Clamps (item 5). (See Fig. 5)
