

# INSTRUCTIONS & INFORMATION

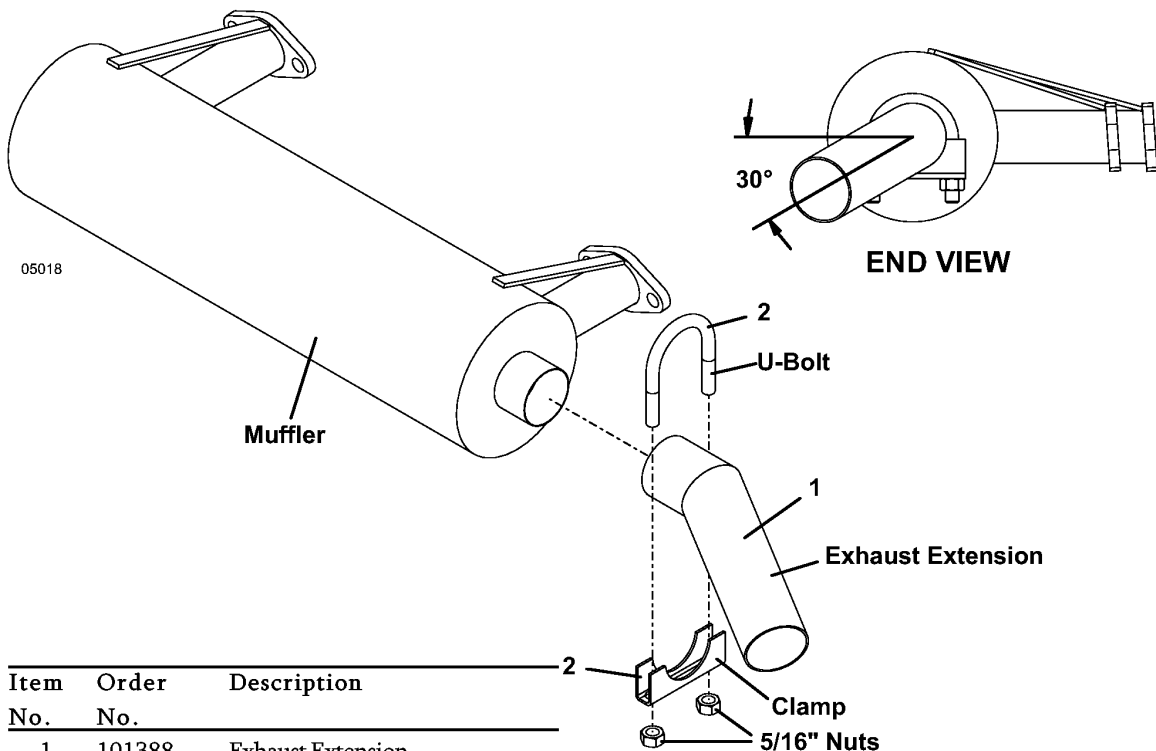

## EXHAUST EXTENSION KIT - KAWASAKI

Part number 604328

Used on Grasshoppers with Kawasaki engines when installing a Model 15 Hopper and/or an 8 gallon fuel tank.

### INSTALLATION INSTRUCTIONS:

- This kit will deflect the engine exhaust away from the 8 gallon fuel tank and the Model 15 hopper mount.
- Install the Exhaust Extension (item 1) over the exhaust tube and point to the rear with a downward angle of approximately 30 degrees. This angle may vary slightly with the hopper mount to allow the exhaust extension to extend through the slotted hole of hopper mount.
- Secure the exhaust extension in position with the Exhaust Clamp (item 2).

Item No.	Order No.	Description
1	101388	Exhaust Extension
2	101356	Exhaust Clamp 1.375
