

INSTRUCTIONS & INFORMATION

RELAY/SINGLE ROCKER SWITCH BOX WIRING ASSEMBLY KIT

Kit Number 605841

Use on Grasshopper Front Mount Tractors equipped with Universal Harness.

NOTE: If more than one accessory will be using the 6-way weather pack connector on the tractor, a "Y" Adapter (part number 605858) is available to allow multiple accessories.

INSTALLATION INSTRUCTIONS:

(Refer to wiring diagram)

- Place unit on a hard level surface.
- Disengage PTO and stop engine.
- Set park brake and remove key from ignition.
- Attach the switch box (item 3) to the seat's right side panel, utilizing the magnet fastened to switch box cover (item 4).
- Raise the seat and connect the 6-way female connector (item 11) to the universal wiring harness. Route wiring between fender and seat and use ties to secure loom in sure a manner to remain clear of any moving parts.
- Connect the 4-way male connector (item 10) from switch box to the 4-way female connector on the accessory wiring harness.
- When removing accessory from tractor, disconnect wiring harness at the 4-way connector.
